Subject: Re: Pavilion WY ethoxylate, alkylphenol, acrylamide results

Hi Patrick - I think there is going to be a push to receive all of the raw data packages for the Pavillion samples - as a heads up.

Also, I have been trying to make some sense of these analyses. Did the report include values for octylphenol ethoxylates? Is that listed as octylphenol (OP)?

What have you come across in the literature about the natural occurrence of OP and NP?

Rick

Subject: Pavilion WY ethoxylate, alkylphenol, acrylamide results

Hi Rick,

Attached is the report from Las Vegas on the ethoxylates, alkylphenols, and acrylamide results.

When you need raw data, please let me know. If you have any questions, please contact me.

Thanks

Patrick
